REID ARCHITECTURE LTD.

Bio

With 30 years of experience, Barb is committed to making her projects a success and is known to go above and beyond the call of duty. She has extensive experience across all market sectors bringing with her the knowledge to get things done - the right way. Due to her diverse training as both a technologist and an architect, she is well versed in the technical and design elements of architecture providing both build-able and beautiful solutions for her clients. She has been fortunate to have completed various roles on her projects as a senior principal and Discipline Lead for the practice. Her duties have ranged from project manager, project architect, senior technologist, interior designer, and contract administrator, all of which have contributed to the success of her projects and career thus far. She is a firm believer in a 'hands-on' approach helping her develop long-standing relationships with her clients and demonstrating a strong commitment and dedication to her clients and team.
